

German Shepherd Dog Club of Oregon
Board Meeting
Aug. 25th 2010

Present:

RS, SH, RH, KL, JP

The meeting was called to order at 7:40.

Trailer Floor: Randy found a liquid roll-on non-slip coating/sealer made to go onto wood. It Has carbide chips so is not as slick as Rhino coating would be. The price is about \$90 / gal enough to do the entire floor, ramp and the bottom section of the side walls.

MOTION; SH/2nd KL:

To authorize up to \$120 for trailer coating material and edging for the ramp if needed.

PASSED unanimously

MOTION: SH/ 2nd KL:

To authorize up to \$25 for tarps to cover the trailer. PASSE unanimously

Match:

Randy states that the show/match calendar is very full for late summer/early fall. It might be good to see if there is an indoor facility slightly north of Portland to use as many of the Seattle are people have stated they would be more likely to enter if they did not have to drive all the way to the Oregon City area.

Suggestion:

For the meetings between now and Christmas, ask to have members bring blankets/towels to donate to shelters

Christmas Party –

Time to start thinking about it.

Ruth
